ENROLLMENT DETAIL

- The Enrollment Detail data are as of the end of the third week of the fall term.
- These figures include full- and part-time, degree- and non-degree-seeking students enrolled in classes.
- Students are sorted into race / ethnicity categories based on guidelines for Federal reporting. These categories are based on three things: a student's immigration status, ethnicity, and race(s). All students who are in the US as a nonresident alien are reported as International. All remaining students who indicated they are of Hispanic or Latinx ethnicity are then reported. Finally, students who chose more than one race are reported as Multi-Racial, while all remaining students are reported under the one race they selected. Any students who did not respond are reported as Unknown.

- States include Washington, D.C., US territories, and American military bases located abroad.
- The number of countries represented is based on the international degree-seeking and international exchange students currently enrolled who are here on an F-1 or J-1 visa or who live abroad and are enrolled in a distance education program.
- Pell eligible undergraduate rate is the percentage of all degree-seeking undergraduate students who received Pell grant funding from the federal government.
- First-generation undergraduate rate is the percentage of degree-seeking undergraduates who 1) completed the FAFSA and 2) indicated that neither of their parents completed any college.
