Possessing or distributing drug paraphernalia is also prohibited whether or not the medical or recreational marijuana or paraphernalia was used on-campus.

The primary educational focus of the University is to create a safe and lawful environment that fosters learning. Therefore, the University is committed to establishing a comprehensive program to prevent high-risk drinking behaviors as well as prevent the unlawful use, possession or distribution of alcoholic beverages. The University will work to provide an environment that supports those who choose not to drink as well as those of legal age who choose to consume alcohol responsibly.

The University expects students to recognize their personal responsibility for the

present and the door is shut.

Students are responsible for the activity that occurs in their residence whether on or off campus. Therefore, students providing their residence as a place for those under 21 to consume alcoholic beverages, either intentionally or recklessly (leaving residence unsecured, not monitoring guests), is not permitted.

Student safety and responsible drinking are the University's main priorities with regard to the legal consumption of alcohol. Therefore, students of legal drinking age are expected to set a positive example to all minors by discouraging alcohol-related behavior that is abusive to oneself or to others. Additionally, expectations for students who reside in University assigned housing include:

1. For students 21 years and older, recurring patterns of irresponsible behavior could result in revoking the privilege to consume alcoholic beverages in the residence by the Office of Residence Life pending further disciplinary action.
2. Displays or collections of empty alcohol containers, such as bottles or boxes, are not permitted for those under 21. Displays or collections by those 21 or over need to be clean and free from debris.
3. Devices used for the rapid consumption of alcoholic beverages, such as funnels or bongs are prohibited.
4. Shot glasses may be possessed by individuals under the age of 21, but only for souvenir or decorative purposes. If any residue of liquid is present inside a shot glass and the owner is under 21, this policy is violated and the shot glass could be confiscated. For individuals under the age of 21, flasks are not permitted under any circumstances.
5. Drinking games, including beer pong and water pong, are prohibited. A drinking game is any game that encourages/forces a player to drink based on something that happens in the game (for example, if a player makes a cup, dra

federal authorities, those students may also face University conduct proceedings.

The University reserves the right to take disciplinary action against any student for off-campus behavior that violates this policy. This includes study abroad, immersion experiences, community service sites, and internship experiences.

If a student is found responsible for violation(s) of this policy, action will be taken to repair harm. Administrative actions may be taken to prevent further harm and to keep the University community safe. A list of possible outcomes can be found [b](#). Also, Student Affairs has established requirements for University social events with alcohol. Those requirements are available under the Alcoholic Beverage Policy [b](#).

The University will typically provide a one-time amnesty to individuals who ask for assistance when experiencing a medical emergency or crisis, are assisted by others who seek help for them in a medical emergency or crisis, help others get help in a crisis, or proactively reach out to university personnel/resources for help due to behavior that violates University policy. While students will be asked to complete wellness coaching following the incident, the student(s) will not be asked to participate in a conduct process. Information related to an incident where amnesty is granted may be used in subsequent disciplinary processes to establish the seriousness of repeated behavior or support a conduct violation for failing to comply with educational interventions. In all cases, amnesty may be denied to individuals who engage in behavior that causes egregious harm, contributed to the underlying issue by providing drugs or alcohol to others in violation of University policy, have repeated qualifying incidents, or who are otherwise deemed inappropriate for amnesty under this policy. The Director of Community Standards and Student Wellbeing or their designee will make determinations regarding who qualifies for medical amnesty.
